

Visual Theatre Commission – Expression of Interest

Name of Artist/Company:	
Email Address:	
Title of project:	
Please give us a rough overview of the project that you wish to develop through this commission. You should talk about your creative idea, any collaborators already on board and any development you have done on the idea to date. We've kept this intentionally light touch to try and cut down on work for artists and will invite a small number of applicants to make a full application (Up to 500 words)	
Having read the section in the guidelines on 'Important Financial Detail', please indicate whether you are proposing a project which has already been listed as part of a multi-year funding application and, if so, how this commission would represent a significant shift in ambition for the work. If not applicable, leave this section blank (Up to 200 words)	
Please provide links to your creative work. This is to give us an indication of the quality of your work and an overall sense of your aesthetic, so please select content which you feel is most relevant. If you have already undertaken an initial stage of development on this project please include any images/footage from this. <i>We recommend that at least one link should give us an idea of your previous artistic practice and experience, such as your personal website, a CV or portfolio. For the other, you might want to include any existing photos, mood boards or creative stimulus for the work you are applying for. If your project doesn't have this yet, it's fine to leave the second box blank or to include another link to previous work.</i>
